Dear Miaomiao,

Congratulations on completing Stanford Summer Session's Silicon Valley Innovation Academy 2018 program. Below is a description of the program for your records:

SVIA Enterprise is an exclusive opportunity for 120 students to experience a team-based moonshot project while at Stanford. Across seven weeks, you'll hone your leadership abilities in a team and your intent on exploring, prototyping, and communicating a world-changing innovation opportunity. The program supports your journey with a mix of weekly, hands-on coaching sessions and real-world deliverables. The program culminates with the SVIA Finale, where each team has the opportunity to present their idea.

Sincerely,
